# awash

eco wash systems

For two decades, **awash eco wash systems** (formerly ACC International Inc.) has delivered efficient, economical and ecological solutions to fleets across North America. **awash** provides large vehicle wash systems, waste water treatment systems and wash bay consult • design • build solutions. Specialized systems and solutions designed to keep your vehicles clean and professional looking...and your waste water safe and non-hazardous.

**Efficient, economical and ecological fleet washing systems that save you time and money.** That makes good sense – for your business and for the environment.

## Powerbrush<sub>2</sub>O

ECOLOGICAL FLEET WASHING SYSTEM

With thousands of installations across North America, **Powerbrush<sub>2</sub>O** is the most economical, efficient and time-saving large vehicle wash solution available on the market today. The economical **Powerbrush<sub>2</sub>O** delivers:

- one person operation
- water savings
- time savings
- space savings
- energy savings

And, the **Powerbrush<sub>2</sub>O** can be installed and running in less than 24 hours.

**Powerbrush<sub>2</sub>O** is a one person, efficient, economical and ecological fleet washing system that saves you time and money. **Period.**

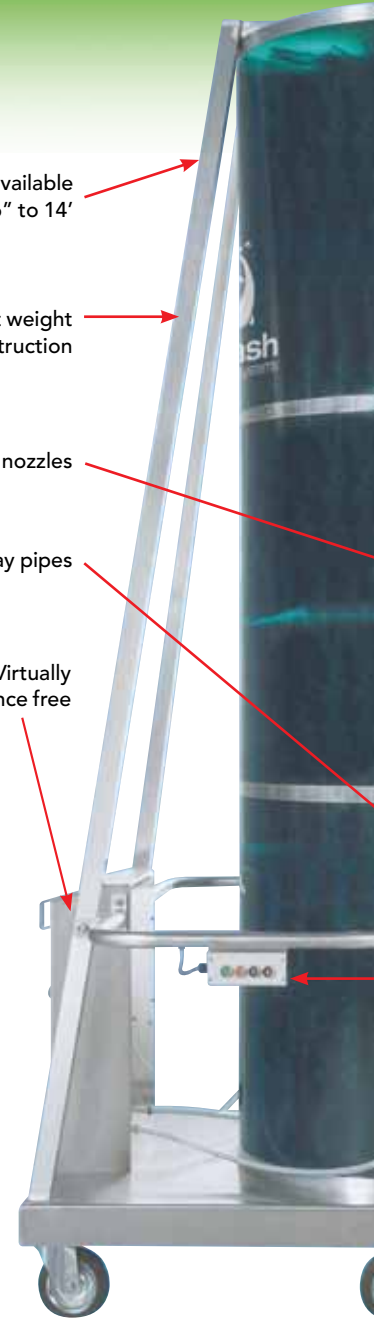

Standard sizes available from 10'6" to 14'

Rugged light weight aluminum construction

Brass nozzles

Steel spray pipes

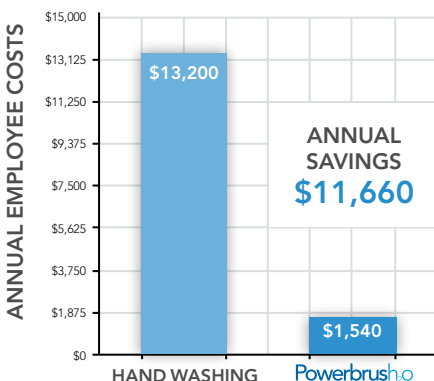

Virtually maintenance free

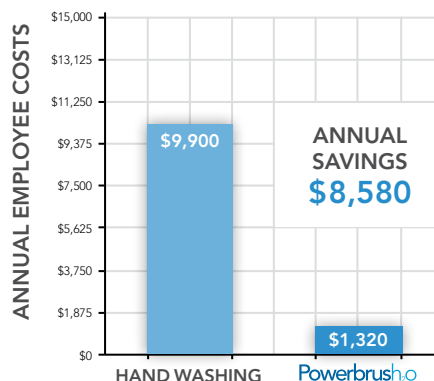

### COST ANALYSIS – EMPLOYEE COSTS

#### Hand Washing Vs. Powerbrush<sub>2</sub>O (based on 1 employee at \$11.00/hour wage)

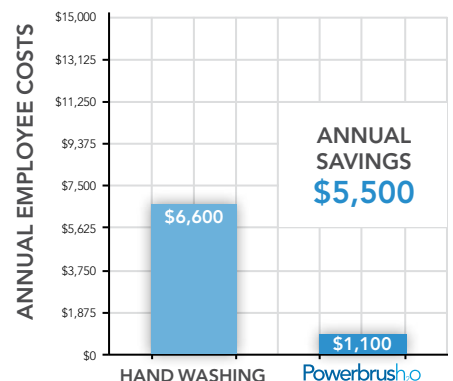

Tractor Trailer – 25 vehicles, 1,200 washes/year

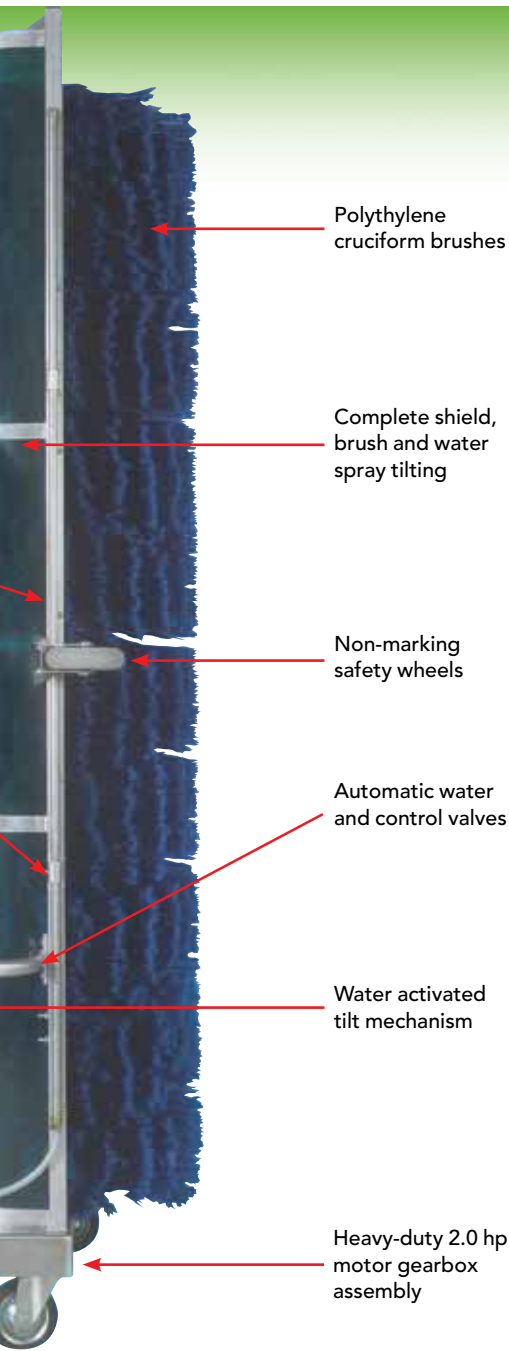

Motorcoach – 25 vehicles, 1,200 washes/year

Pupil Bus – 25 vehicles, 1,200 washes/year

Polythylene cruciform brushes

Complete shield, brush and water spray tilting

Non-marking safety wheels

Automatic water and control valves

Water activated tilt mechanism

Heavy-duty 2.0 hp motor gearbox assembly

THE WALKAROUND

THE ONBOARD

# Powerbrush<sub>2</sub>O GO

MOBILE ECOLOGICAL FLEET WASHING SYSTEM

Taking it to the next level, the **PowerbrushH<sub>2</sub>O Go** packs all the high performance features of the **PowerbrushH<sub>2</sub>O** into a fully mobile wash system. Requiring no hose and no electrical cord, the **PowerbrushH<sub>2</sub>O Go** is always available – when and where you need it!

Featuring our unique Brush Inclination System, **PowerbrushH<sub>2</sub>O Go** is available in two powerful models:

## THE WALKAROUND

- one person operation
- easy steer enhanced system
- diesel, gas or battery models available

## THE ONBOARD

- one person operation
- "stand up" or "sit down" system
- diesel model available

# Electropulse

THE NEW GENERATION OF WASTE WATER TREATMENT

The revolutionary Electropulse system's proprietary "One Step Electrocoagulation Treatment Process":

- fully automated waste water treatment system with recycling capabilities
- NO daily maintenance required
- NO filters to change or clean

- NO separation chemicals required
- removes emulsified oil, grease, gasoline, antifreeze, TPH, suspended solids, dirt, and heavy metals

**Electropulse separates contaminants from waste water... renders contaminants non-hazardous and recycles clean water to a holding tank for reuse. That makes good sense – for you and for the environment. Period.**

## Hand Washing Vs. Powerbrush<sub>2</sub>O

8 WASHES PER DAY 		TRUCK	COACH	SCHOOL BUS
3/4" hose	US Gallons	11,040	8,280	5,520
30 days	US Gallons	331,200	248,400	165,600
